

TRIP SERIES

High value

The inSight Trip multimedia program distinguishes itself by excellent long-lasting solutions to entertain the kids at the rear seats. Besides that, the Trip products offer **great value for money**. This means lots of options and possibilities as well as a user-friendly control and ease of installation. Though the features may be slightly less numerous, the Trip products benefit from the very same quality level as the more elaborate IAS program.

The single-DIN DVD player Trip D110Bi perfectly fits in your dashboard's DIN-slot; the Trip D600CHI - for example installed in the glove box - even extends the playing time up to 6 discs. The Trip RD920i integrates all solutions in one roofmount unit: DVD player plus 9.2" monitor. The sound which accompanies the movies won't disturb the driver as the wireless headphones guarantee a private entertainment for the audience. Many of the Signat inSight Trip products are fully compatible with the IAS products (see other side) which assures an easy menu control from IAS screens.

Trip D110Bi In-dash DIN-size DVD player

- » DVD - VCD - CD - CD-R - CD-RW - MP3 - MPEG4 playback
- » NTSC - PAL video system
- » Dolby Digital, DIVX decoding **NEW!**
- » OSD menu
- » Last position memory **NEW!**
- » Signat all-in-one remote control
- » IAS compatible
- » Coaxial digital output

Trip RD920i 9.2" roofmount flipdown monitor with DVD player

- » 16:9 TFT LCD 9.2 inch color monitor
- » Resolution (HxV) 1920 x 480 pixels
- » 80° left, 80° right swivel angle
- » Integrated DVD player with DVD, VCD, SVCD, CD, MP3, JPG playback
- » MP4, DIVX, DTS, Dolby Digital decoding
- » Last position memory
- » PAL/NTSC compatible video system
- » 1x video in, 1x video out, RCA audio out
- » Infrared, FM transmitters
- » Wireless remote control
- » Slots for SD, MMC cards and USB

TRIP D600CHI 6-disc DVD changer

- » IP-bus or stand-alone connection
- » DVD, VCD, SVCD, CD, MP3, CD-R, CD-RW playback
- » Dolby Digital, DTS decoding
- » Play position / ignition memory
- » Coaxial digital output
- » 1x RCA video, 2x RCA audio outputs
- » Adjustable mounting 0-90°
- » Remote control
- » IAS compatible
- » Anti-shock housing
- » Non-skip performance
- » Advanced electronic shock protection
- » Parking brake switch
- » Remote sensor eye with 18ft wire

S804002 infrared headphones

- » Wireless stereo headphones
- » Auto switch off, auto mute
- » Volume control, on/off
- » Adjustable lightweight headband
- » 40mm mylar speaker cones
- » Dual IR frequencies, 2.3 - 2.8MHz
- » Switch for changing frequencies

High-end quality

IAS stands for Intelligent Audio/Video System. The IAS system allows for the easy connection of multiple monitors. The 'brain' of this system is the IAS-Mini, a superior, intelligent audio/video selector. It lets each monitor choose and control an individual source - fully independently from the other monitors. In this way, the full-functional **high-end quality** of the IAS mobile multimedia system will become reality with sound and vision of the highest possible standard.

A perfect example of the IAS system is the H70VA. This monitor features one single, 'smart' navigation button, which evokes an OSD menu. Now several main functions of the DVD player can be accessed. So for example one passenger on the rear seat can watch a DVD, while the other - at another monitor - chooses a program from the digital TV broadcastings. Normally this kind of switching asks for an enormous amount of cables and complex switching circuits. In the IAS system only one single cable connects the monitors and the IAS A/V selector, as to keep the total system install extremely simple.

IAS H70VA

7" headrest monitor

- » 16:9 PAL/NTSC color monitor
- » IAS for easy connection and commanding
- » One button for total system control
- » Super Mini-DIN 8-pin connector fits through headrest supports
- » 2-channel infrared transmitter for wireless headphones
- » Remote control, OSD menu
- » Dimensions 174x121x22mm

MDVB-T1081VA

Digital DVB-t TV-tuner

- » Improved reception at high speed
- » DiBcom 3000MC demodulator chipset
- » AFS Automatic Frequency Switch
- » Infrared remote control
- » 1x S-Video out (only DVB-T)
- » 1x audio RCA out, 1x A/V RCA out
- » 2x A/V RCA in
- » Teletext, EPG, DVB-T radio, subtitling
- » Fully IAS compatible, for easy control

» Also available without Conax card-module (**MDVB-T1080VA**)

DVD10VA

10-disc DVD changer

- » DVD+/-R(W), (S)VCD, CD, CD-R, CD-RW, MP3, JPG playback
- » Dolby Digital, DTS decoding
- » Region 1-6 0, PAL/NTSC
- » Digital optical out, composite video out
- » 2x RCA audio output
- » Anti-vibration ESP memory (10-100 sec.)
- » OSD features: video, audio, language, control
- » Installation angle 0 - 45° - 90°
- » Fully IAS compatible, easy control
- » Remote control

S804102

Infrared headphones

- » Wireless stereo headphones
- » Dual frequency receiver
- » Switch for changing frequencies
- » Foldable design
- » 40mm mylar speaker cones
- » Switch for changing frequencies

IAS-Mini

A/V selector

- » AV switch for two IAS-monitors
- » Connects to infrared ports of sources
- » Choosing & controlling sources (eg. DVD and DVB) with each IAS-monitor
- » Two inputs and two outputs
